GI-2015-03-SCG-52-01A

Subject: General Order (G.O.) 112¹ Operation and Maintenance Inspection of Southern California Gas Company's Cathodic Protection Facilities in the Coastal Transmission Area

Dear Mr. Cho:

The Safety and Enforcement Division (SED) of the California Public Utilities Commission conducted a G.O. 112¹ Operation and Maintenance Inspection of Southern California Gas Company's (SCG) Cathodic Protection (CP) Facilities in the Coastal Transmission Area (Inspection Unit) on March 23-27, 2015. The inspection included a review of the Inspection Unit's cathodic protection and odorant records for calendar years 2013 and 2014 and random field inspections of pipeline facilities in the Goleta and Ventura transmission districts. SED staff also reviewed the Inspection Unit's Operator Qualification records, which included field observation of randomly selected individuals performing covered tasks.

SED staff did not identify any probable violations of G.O. 112¹, Reference Title 49 Code of Federal Regulations (CFR), Part 192 and considers this inspection closed.

If you have any questions, please contact Michelle Wei, at (213) 620-2780.

Sincerely,

Kenneth Bruno
Program Manager
Gas Safety and Reliability Branch
Safety and Enforcement Division
